

Albuquerque

Perfect Weather

Time and time again, you'll ask someone who has relocated to Albuquerque, New Mexico why they decided to move here, and you'll hear the response: "The weather." Many visitors cannot believe how many completely beautiful days Albuquerque enjoys year round. We bask in 310 days of sunshine, blessed with a mild, dry climate and four distinctly beautiful seasons. Very low humidity means that even when temperatures rise, summer is always comfortable, and our sunny winters are comparatively mild. Our average annual rainfall is about 9 in. and the average relative humidity is only 44%.

Be aware that low humidity and lots of sunshine means visitors need to stay hydrated by drinking lots of water as well as using lotion and sunblock for protection.

We hope your experience in Albuquerque is nothing short of ideal, and odds are that you will get a clear sunny day and perfect weather.

Monthly averages
