*Psalms 19:1*

*Psalms 148:3*

1. What are the heavens above us saying?  
(Psalms 19:1)

2. What are these stars doing? (Psalms 148:3)

3. What kind of stars are these? (Job 38:7)

4. What were the stars doing while God created the earth? (Job 38:7)

**What do you think "Morning Stars" were?**

Whole note and half note  
live inside this shoe.  
Quarter note, their friend,  
lives there too.  
When these note are tired,  
it is often said  
That they take a little rest  
and climb up in their bed.  
Quarter rest is "wormy"  
when he takes a nap.  
A nap that's very short...  
it only lasts 1 tap.  
When half note takes a nap,  
he looks just like a hat  
For no longer than 2 taps,  
and that takes care of that.  
Whole rest hats turn upside down  
to get the longest sleep.  
For 4 whole taps you'll never hear  
a resting whole rest peep.  
So circlce all the rests  
you find resting in this shoe:  
Whole rests **RED**,  
half rests **GREEN**,  
and all the quarters **BLUE**.

As a young boy, Adolphe 20-16-13 helped his father make many musical instruments. When Sax grew up, he became a famous instrument maker himself. In 1840, at age 4-5, he invented a new instrument. It was a cross between a 7-15-16-8-9-17-18-19 and a 19-8-12-11-14-18-19. It had a mouthpiece with a vibrating wooden reed like a clarinet, a 10-18-15-15 like a trumpet, and it was made of 10-8-16-20-20. Instruments like flutes and clarinets cannot play loudly, but this new instrument sounded

like a big clarinet with the power of a trumpet. Sax named the instrument a 20-16-13-14-2-1-17-18. It became such a success in military bands that Sax invented 3-6 different kinds of saxophones. Today there are 6 different kinds in use. They range in size from 4 feet tall to over 5 feet tall. To play a song on the saxophone, the musician presses the keys. Can you guess the nickname for the saxophone? Answer: It is called a 20-16-13!

# On Top Of My Pizza

Words by Joe Swaim  
Copyright © 2006 by Praise Hymn, Inc.

On top of my piz - za \_\_\_\_\_ I got ex - tra cheese, \_\_\_\_\_

But on my first bite I \_\_\_\_\_ let loose with a sneeze. \_\_\_\_\_

The sneeze was so strong that the pizza took flight,  
It flew to the left then it flew to the right.

A cartoon illustration of a pizza flying through the air, surrounded by motion lines and small pieces of toppings like mushrooms and pepperoni.

It flew out the window and high in the air,  
And suddenly everyone started to stare.

No body could tell if it were friend or foe,  
Then somebody yelled out "It's a UFO."

Policemen arrived with their blaring sirens,  
And so did the army, air force and marines.

They shot down my pizza all covered with cheese,  
But tiny cheese pieces blew off in the breeze.

They landed in Boston, Miami, LA,  
My pizza lands someplace brand new every day.

So when you eat pizza all covered with cheese,  
Please cover your mouth if you feel you might sneeze.

My Dear Sister,  
With my fairly respectable  
talent (I hope you don't take that as  
bragging), it would be silly for me  
not to try my hand in writing music.  
But do not for a moment think  
that I expect to be a great  
musician.

Tchaikovsky  
is the greatest musical  
talent in Russia.  
In him is the greatest hope  
for our musical future.
