SARAH

Well in my opinion school is to learn and actually get so where in life. I really don't see anyone stopping people from skipping. Most of the people that miss school or ditch think no one cares about their well being or anyone cares about what happens to them. Most of the kids that are skipping or just plain not coming to school the parent don't care. Most kids just want to get their GED but just give up cause no one is motivating them or pushing them. I really don't think that there are very much anyone can do to stop or to improve skipping school.
