

I'm not quite sure of how girastic the change in choice is since I haven't been here long but even in the few months I've been here everything has been getting more and more chaotic, like everything was way chill for awhile but the more people who come here, the crazier it gets. There was a few big groups of people they just crammed in here really quickly and I was in one of those groups. Once this last big group of kids came everything has been getting worse. I came here so I could concentrate on my education and so I wouldn't have to stay in a huge school. Since I don't do well in huge environments CHOICE was a good thing for me but with all the chaos and crowds of loud distracting people I can't function well at CHOICE now.
