

THEY'RE BAAAACK!!!!!!

Be aware that SEIU has decided to attempt to unionize our hospital . . . AGAIN! They are already calling our homes and making personal visits right to our front door. We have also heard of possible cards being sent in the mail that if sent back, it could allow the union enough leverage to hold, again, an election. Don't be fooled by signing this card!

If you receive a call from a Union member let them know that we mean business. We will not allow to be fooled or intimidated by empty promises or to have yet another game of our Managers/Directors not being able to communicate with us.

We need to get the message clear once and for all

WE DO NOT NEED A UNION!!!!
