## DECORATIVE CONCRETE SEALERS

### Product Guide

# SURFKOAT

Surface Koatings, Inc.

Manufacturers of Industrial and Decorative Concrete Materials

# ALL OF THE FOLLOWING DECORATIVE CONCRETE SEALERS ARE AVAILABLE IN VOC/OTC COMPLIANT FORMULATIONS.

2000 SUPREME

2000 Supreme is 25% solids a penetrating, non-yellowing, pure acrylic concrete sealer designed for all types of concrete. 2000 Supreme offers improved resistance to rain, the sun, freezing temperatures, stains, and other pollutants that sometimes can be hazardous to concrete. Applying 2000 Supreme to exposed aggregate will also help to eliminate loose pebbles and premature wear. 2000 Supreme can be considered an ultimate multi-use concrete sealer.

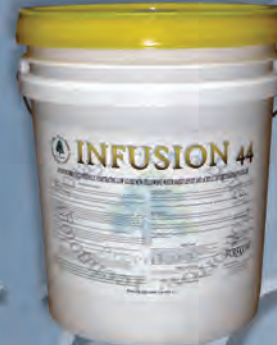

LUSTER SHIELD

Luster Shield is a high gloss, UV Resistant acrylic copolymer concrete sealer intended for all types of concrete. Luster Shield offers improved resistance to rain, the sun, freezing temperatures, stains, and other pollutants that sometimes can be hazardous to concrete. With substrate wetting agents and anti-foaming additives included in this formulation, Luster Shield provides superior adhesion to properly prepared concrete. Applying Luster Shield to exposed aggregate will also help to eliminate loose pebbles and premature wear. Luster Shield can be considered an ultimate multi-use concrete sealer. Meets ASTM Cure & Seal specs and is also an excellent Non-Yellowing protective coating for a variety of concrete uses. Also Available: Super Luster Shield (30% solids).

STAMP SEAL

Stamp Seal is a medium gloss, fast dry, non-yellowing, penetrating, pure acrylic concrete lacquer style sealer designed for decorative concrete. Stamp Seal offers improved resistance to rain, the sun, freezing temperatures, stains, and other pollutants that sometimes can be hazardous to concrete. Applying Stamp Seal to exposed aggregate will also help to eliminate loose pebbles and premature wear. Also available are Stamp Seal Gloss (25%) high gloss and Stamp Seal Xtreme Gloss (30%) high gloss.

INFUSION 44

Infusion 44 is an 18% solids non-yellowing, Water Based Epoxy-Acrylic designed for interior concrete sealing applications. Infusion 44 is a penetrating breathable coating that provides a satin or low gloss finish to a multitude of interior horizontal or vertical concrete and masonry finishes. Infusion 44 is self-crosslinking, which provides better film formation, early water resistance, adhesion, toughness and outstanding efflorescence and alkali resistance. It can be applied to green concrete. Infusion 44 provides enhanced performance over traditional acrylics with better flexibility, chemical resistance, non-blushing, adhesion, durability and hot tire resistance. Also available: Infusion 44 Gloss (32%) high gloss.

## *Also Available for Decorative Concrete Applications:*

MMA 25 - a 25% solids, ready to use solvent based methyl methacrylate.  
MMA 50 - a 50% solids, concentrated solvent based methyl methacrylate.

## *High Performance Decorative Concrete Coatings:*

1040 Bond Koat - a 40% solids, two component water based epoxy primer.  
1055 Seal Koat - a 55% solids, two component water based epoxy top coat.  
8000 Epoxy Primer - a 40% solids, two component solvent based epoxy primer.  
8055 Epoxy - a 55% solids, two component solvent based epoxy top coat.  
250 HP Cyclo - a 100% solids, two component cylo aliphatic amine epoxy system.  
5100 CLear Urethane - a 51% solids, two component solvent based polyurethane.  
Poly 250 - a 51% solids, two component solvent based acrylic-urethane.  
6000 WB Urethane GL - a 55% solids, two component water based polyurethane.  
6100 WB Urethane MT - a 56% solids matte finish, two component water based polyurethane.  
MCP 45 - a 45% solids, single component solvent based moisture cured polyurea.  
MCP 60 - a 60% solids, single component solvent based moisture cured polyurea.  
PolyKoat GL - a 68% solids, two component solvent based polyaspartic polyurea.  
PolyKoat GL 80 - an 80% solids, two component solvent based polyaspartic polyurea.  
PolyKoat GL 80 SC - an 80% solids slow curing, two component solvent based polyaspartic polyurea.  
PolyKoat GL 93 LO - a 93% solids low odor, two component solvent based polyaspartic polyurea.  
PolyKoat GL 100 - a 100% solids, two component polyaspartic polyurea.
