WHAT CAN WE DO?

I have been giving some thought for several days to the position of the "Silent Majority" of our citizens who claim to be Christian. It seems to me that there should be a way to simply speak to those who are attempting to squash the spirit and witness of the church across America.

The belligerent, unregenerate, atheistic minorities who are devoid of morals, along with other religions have launched an assault upon us and are attempting to crush every effort when we speak our convictions. Our politicians and courts have been intimidated and infiltrated by this vocal minority to the point that Christians are beginning to cower in shame and disgrace before our God and our fellow citizens of the world.

When we ought to be finding a legal and peaceful way to stand against this onslaught, and instead, we are simply allowing these forces to push us aside in silence. The courts are daily ruling against the forms of demonstration that have been traditionally used by Christians to proclaim our commitment to our faith. They are ordering the removal of Christian symbols and Biblical quotes from public display on governmental property.

They have closed our schools to past means of sharing our commitment and our faith with children who are being confused and contaminated freely by the godless minority who are introducing them to concepts aimed at an indoctrination of moral and sexual perversion which is destroying the American Family.

Well, as a Christian, I have had enough of it and am determined to do something that will stand as testimony of my personal opposition in a way that cannot be legislated against. My home is a place that cannot be invaded or controlled. Our business establishments cannot be ordered around by the courts. These are the only places outside the physical worship centers of our land where we still have absolute control of what can and cannot be demonstrated for or against.

So, I am launching a campaign today against the forces that stand against my liberty by asking you to join with me. If you are a Christian, I am going to ask you to obtain a simple cross of your own choosing as to size appropriateness and material construction. I think that it should be colored "RED" to demonstrate our conviction and determination and I am asking you to place it in a prominent visual place on your home or business property.

There need be no written statement or display attached. I am convinced that, if the Christian population of America will simply join together in this symbol of resistance, then those who see it will begin to realize we are in the majority and we are not going to be giving any further ground away.

I also believe and pray that it will open lines of communication with our unbelieving neighbors which can allow us to speak a word of peace, salvation and love that helps them to see Christianity in a new light. I also think that it will present a powerful testimony to the religions rising up around us that seek to destroy our faith. Without a word being spoken aloud, we can say, "You have come against us with words, courts, governments and bombs but we will stand against you with a steadfast faith in our Redeemer. We will prevail."

In the days and weeks ahead, I intend to send this message out to every contact that I have with a plea for others to do the same. Not only here in America but around the whole world, we can reach every nation through the internet in a matter of a few hours or days. Will you take this message to your Pastor, church leaders and neighbors? Will you take it to your local papers and ask them to place it in their publications. Perhaps your church would purchase an advertisement in the local paper to this end. Perhaps you can take it to your local radio and television station and give an interview to some reporter. Perhaps your denominational leaders could be asked to get behind the effort. If you are financially able to do so, perhaps you can take out an ad in the media publicizing this effort. Maybe you can speak to your local clubs and organizations.

It is time to stop talking and do something. Will you join me?

Please post this on your social networking websites and to all your contacts...

Bro. Scott
