

Heavy Duty High Volume Cleaning Systems

RE-CYKE[®] Demucking System

- ◆ Compact Skid-Mounted System ◆
- ◆ High Volume with Low Pressure ◆
- ◆ Long-Range Adjustable Spray ◆
- ◆ Recycled Water Compatible ◆
 - ◆ Fan-Cooled Motor ◆
 - ◆ Low Maintenance ◆

Why Do I Need a Re-Cyke[®] Demucking System?

The high volume/low pressure output design is most effective for cleaning equipment with muck, mud, grass, wood chips, dirt, leaves, clay, etc. A traditional high pressure washer forces debris into the equipment's working parts.

How Does the Re-Cyke[®] Demucking System Work?

The Re-Cyke[®] Demucker works with fresh water or in conjunction with a Re-Cyke[®] water treatment/recycling system. The Demucking System is a pre-wash, on-site system that can be used indoors or outdoors. (In freeze-prone areas, indoor installation is required.)

STANDARD FEATURES:

- ◆ High- Efficiency Self-Priming Pump
- ◆ 208/480V, 3-phase Electric
- ◆ Epoxy-Coated Steel Frame
- ◆ TEFC Industrial Motor
- ◆ Pressure Gauge
- ◆ NEMA 4X Control Panel
- ◆ 50-foot 3/4" High Pressure Hose

OPTIONAL FEATURES:

- ◆ U.L. Listed System
- ◆ Remote Motor Control
- ◆ Emergency Stop Button
- ◆ 100-foot Hose
- ◆ Gun and Wand Stand
- ◆ Wall-mounted Reel/Wand

Demucking System Specifications

Model	DM-300	DM-1000
Flow Rate, GPM	20	20
Max Pressure, psi	300	1000
Motor HP	7.5	15
Pump Type	Diaphragm	Diaphragm
Hose	50' @ 1/2"	50' @ 3/4"
Dimensions	18" x 24" x 40"	18" x 24" x 40"
Weight	215 lbs.	320 lbs.

Self-Contained Unit (CES) On-Site at Large Equipment Company.

Demucker installed in CES Unit.
