

BUDGEWOI FC PLAYER DEVELOPMENT PROGRAM

Budgewoi Football Club believes that football development begins when a participant enters the game for the first time, whether as a player, coach, referee or manager and continues through until he or she reaches their particular end point, be it representing Australia or simply managing the local community team.

Budgewoi FC is committed to providing an excellent football environment for our member's development. This commitment encompasses all the activities, programs, pathways and resources that are either existing, or need to be implemented in order to ensure that our members are given the opportunities to pursue their dreams, to the best of our abilities and resources.

This 2012 season sees the introduction of the Player Development Program which is a complete overhaul of our coaching Philosophy and is a Three tier structure as follows.

1. All teams coaching to be centralised by age groups to ensure all coaches are supported and assisted in the BFC coaching methodology to ensure consistent delivery and teaching
2. Introduction of the Budgewoi FC Skills Clinic;
A weekly skills clinic for accepted applicants who wish to develop their football skills further. *See BFC Skills Clinic Handout for more information*
3. Introduction of the Central Coast Football Regional Development Program;
An opportunity for identified players to join a Regional CCF squad for further development and potential pathway to Mariners Representative Academy
Further information will be available when advised by CCF

Our development programs provide equal opportunity for all our members to be their best in playing our great game, whatever level that may be.

All BFC Player development Program incorporate the following methodologies;

- Football Federation Australia national Development Plan
- Football Federation Australia National Football Curriculum – The Building Blocks
- Global Football System (<http://www.globalfootballsysteem.com/>)
- Small Sided Football – FFA
