Fish Eyes and Rice

About the only thing I like about fish would be a fisheye camera lens. The young ones in the mountains seem to love the fried fish with their rice, so that is what we served up this afternoon.

I didn't actually serve it up, but the ladies did!

For many this is the only type of meat they will have all week, so they were happy to receive it.

We are making great strides in the mountain church, and it seems that the doors to the community have been opened to us.

Please keep us in your prayers as we consider the future direction of the ministry and as we try to discern where God would have us concentrate our efforts.

Make me smile ...

A little rice, a little fish, a little coconut and bamboo shoot and you get a big smile!

I am thankful to Agnus, Almay, Nemia and Catherine for serving in the kitchen each week ensuring the meals are prepared.

It is no small feat keeping all these faces smiling!

It is a real joy for us to serve in the mountains of Dan Salvador and we are excited about what the future holds for us in the mountains.

Our thoughts are wandering towards church planting in each Barangay in the region of the island.

The current church would serve as our mountain outpost.

From there we could leapfrog through this are establishing local churches.

Catherine's Corner

The establishment of the mountain church is just about complete, and we move forward in our community outreach programs. This is part of our trying to show the love of Jesus in a practical way in the community.

Each Tuesday we conduct a literacy and livelihood program for the women of the church.

The sad reality is that many do not read or write, nor do they have life sustaining skills to care for their family.

We are using this opportunity to teach the women basis reading, writing, and livelihood skills.

Please pray with us we venture deeper into this program.

Would you like to assist with this program?

We could use good used books (pre-school, kindergarten and first grade level), flashcards, writing pads, alphabet charts, etc. to make this program a success.

Please feel free to contact me at catherine.caplinger@gmail.com.

Would you like to contribute to the work being done in the Philippines?

Operational Needs
