

Highways Design Manager

-  CAREER OPPORTUNITY
-  HIGHWAYS ENGINEERING DESIGN
-  SYDNEY BASE

Our client is well known in the NSW market for its expertise as an Engineering Consultancy in the field of Highway design. With many landmark projects behind them, they are seeking a Lead Highways Engineer/Manager to oversee the team in NSW and ACT.

This role will also involve mentoring staff, liaising with clients and developing ongoing relationships in the public and private sector.

We are seeking an individual who has a strong desire to move into a management role and build an already existing business into the benchmark company for highway design in NSW/ACT.

The successful candidate will:

- Demonstrate significant experience in engineering design and delivery on major highway projects in NSW/ACT
- Have a background in design verification, use of specialised software such as Inroads
- Be a people person who enjoys not only being part of a team but a leader.
- Enjoy identifying new opportunities and liaising with clients.

An outstanding salary package will be offered according to experience to the successful candidate.

This unique opportunity is available now for the successful candidate to move to the next level in their career.

Please note only candidates with appropriate experience in the NSW/ACT market should apply.
